

DETAILED SAFE WASH

EST TIME: 1 HOUR
FROM £50

A detailed safe wash is a fundamental automotive maintenance task that involves cleaning the exterior surfaces of a vehicle to remove dirt, dust, road grime, and other contaminants. It is one of the simplest yet essential ways to keep your vehicle looking clean and well-maintained.

DETAILED SAFE WASH

WHAT'S INCLUDED:

EXTERIOR

- The use of deionised 0ppm water to guarantee a spot-free finish.
- Wheels cleaned including wheel faces, and inner barrels, with iron fallout decontamination.
- Tyre walls cleaned with a dedicated tyre cleaner.
- Citrus pre wash to release any stubborn road grime and traffic film.
- Snow foam pre-cleanser applied to safely loosen dirt.
- Soft detailing brushes used to agitate the commonly overlooked areas such as badges, emblems and petrol caps.
- Wheel arches brushed and pressure washed.
- Safe two bucket hand wash using a pH neutral shampoo and plush lambswool wash mitts. Hand dried using plush microfibre drying towels.
- Air dried using specialist blower to get in all crevasses such as grills, wing mirrors and around lights.
- Vinyl, rubbers and plastics dressed.
- Exhaust tips cut and polished if required.
- Glass cleaned streak free.
- Tyre dressing applied.
