

# NEW CAR PROTECTION

**EST TIME: 1 DAY**  
**FROM £450**

The “new car protection package” is a set of services and treatments designed to protect a your newly purchased vehicle from a range of environmental and mechanical factors that can degrade its appearance and condition over time.

One of the primary components of a new car protection package is the application of a ceramic coating. This product creates a protective barrier over the vehicle’s paint, shielding it from contaminants, UV rays, bird droppings, tree sap, and other environmental factors. Ceramic coatings are known for their durability and longevity.

## WHAT’S INCLUDED:

### EXTERIOR

- The use of deionised 0 ppm water to guarantee a spot-free finish.
- Wheels cleaned including wheel faces, and inner barrels, with iron fallout decontamination.
- Tyre walls cleaned with a dedicated tyre cleaner.
- Citrus prewash to release any stubborn road grime and traffic film.
- Snow foam pre-cleanser applied to safely loosen dirt.
